EXAMINER'S AMENDMENT

An Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR § 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Claims 8 and 23 have been amended as follows.

8. (Amended) The device of claim 1, wherein said arrangement of layers forms a mixed half-eighth wave structure.

23. (Amended) A method of frequency up-converting a photonic signal incident on a device, the device including a plurality of first material layers and a plurality of second material layers, the first and second material layers being arranged such that the device exhibits a photonic band gap structure, wherein the photonic band gap structure exhibits first and second transmission band edges, the method comprising the steps of:

applying a first photonic signal to the first and second material layers, generating a second photonic signal having a second frequency corresponding to the second transmission band edge, wherein a subsequent interaction of the first and second photonic signals with the arrangement of layers causes a mixing process to generate a third photonic signal having a third frequency that is more than the first and second frequencies.

This is an informal Examiner's amendment in accordance with MPEP § 1302.04, correcting a grammatical error and an inadvertent error of transcription, and does not

require specific approval by the applicant. The amendment to claim 8 corrects the inadvertently changed spelling of "half-eighth", and the amendment to claim 23 corrects a grammatical error of "signals" to "signal".

EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

The following is an Examiner's Statement of Reasons for Allowance: The amendment received on October 10, 2003, has corrected the problems noted in the prior Office action. Further search by the Examiner having uncovered no additional relevant prior art, claims 1-6 and 8-27 remain allowable over the prior art for the reasons set forth in the prior Office action (paper number 8, mailed April 18, 2003).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

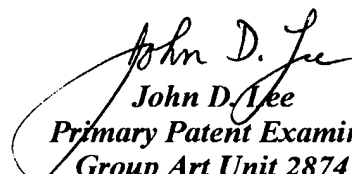

DISCUSSION OF THE CITED PRIOR ART

All of the prior art documents submitted by applicant in the Information Disclosure Statement filed December 16, 2002, have been considered and made of record (note the attached initialed copy of form PTO-1449). None of these documents is deemed to have a negative bearing on the patentability of the claims of this application.

Any inquiry concerning the merits of this communication should be directed to Examiner John D. Lee at telephone number (703) 308-4886. The Examiner's normal work schedule is Tuesday through Friday, 6:30 AM to 5:00 PM. Any inquiry of a general or clerical nature (i.e. a request for a missing form or paper, etc.) should be directed to
